DESCRIPTION

Property 10203 – Gubbio - Umbria

14 Bedrooms (3 twin, 7 double, 2 suites, 2 double in the attic) – Pool

Surrounded by a large loop of the Chiascio river, in the territory of Gubbio, in Umbria, the region so called the “green heart of Italy”, on a promontory from which the view arrives up to the Cucco Mount, has been built Property 10203. Immersed in an uncontaminated landscape, bordered by woods, grasslands and waters, the history of Property 10203 is dating back to the middle ages, when it was the heart of the defence of the Commune of Gubbio against Perugia.

In 1391 Melchiorre Montaiti, Lord Magrano, undertook against the Noble Antonio da Montefeltro, Lord of Urbino and Gubbio: the castle was then severely assaulted with the destruction of its mill (then built again and still existing nowadays) but the soldiers of the Montefeltro family did not succeed to take over the Castle. In 1431 it moved under the jurisdiction of the Dukes of Montefeltro. Federico da Montefeltro (1422-1482) turned it into his favourite hunting residence; it is said that the Duke was active in the hunting of the fallow deers and wild boars that are still populating the residence; this hunting was always finishing with a banquet during which were appreciated the most precious fruits of this land, among which in particular the truffle. In 1830 the castle becomes the property of the family that still nowadays is the owner of the residence: more specifically to the Princess Giulia Bonaparte, daughter of two first grade cousins Zenaide and Carlo Luciano Bonaparte Prince of Canino, both nephews of Napoleon.

In this place so full of traditions and history, you can spend some nice days of relax and entertainment, not far away from fascinating cities of art such as Gubbio, Gualdo Tadino, Nocera Umbra, Perugia and Assisi in addition to the park of the Cucco Mount with its summer sports (trekking and delta plane) and winter sports (skiing). The residence, agricultural and agro forest firm, is immersed in a large park where you can find games, fallow deers, pheasants, wild boars and any other kind of animals typical from this area, and it is part of a consortium of fauna and hunting. It is possible to make guided visits of the fauna firm and of the Castle. In the surroundings of the residence one can make excursions in the park of the Cucco Mount where it is possible to practice delta plane and other excursion activities. In the firm it is possible to practice sport fishing on the Chiascio river, the picking of mushrooms and other fruits of the wood: in particular you can attend the search and picking of white and black truffles by trained dogs when it is the season.

The Castello del Conte is made of a central building and another edifice, the antique “foresteria”, linked to the first one. Our house has 12 rooms and an apartment. The rooms (3 two-bed rooms, 7 double rooms and 2 suites) are completely furnished with Italian, French and German antique furniture, and every room offers a very quality level, thanks to the equipment and services (we actually offer two whirlpool baths and a mini swimming pool inside the room). The attic room is equipped with a wooden parquet, and offers two double bedrooms, two baths and a living room with kitchenette.

We offer half board service and light lunch: groups of min. 10 people can book our dinner service with a chef de cuisine and a waiter paying in addition to the cost of food and beverage.

Our guests can use a billiard, a dining room, a living room, some reading corners, a well equipped kitchen, two toilets, a swimming pool with locker room and showers, a car park, a garden with bowls playground, TV, DVD players, CD players and free WiFi in the whole house. On demand the firm organizes courses of gilding, small restauration and decoration, as well as cooking and wine-tasting classes with professional sommeliers. Our staff speaks English.
