The Property

Nestled in the heart of the charming hamlet of Pattendouche, Property 1557152202 is a 17th-century Piedmontese farmhouse that has been given a flamboyant makeover by its owner, an English interior designer. Designed with copious amounts of wood, stone, and crisp white walls, Property 1557152202 accommodates up to 12 adults and 6 children, featuring five elegant en-suite bedrooms, a media room with a comfortable double sofa bed, and a cosy children's dormitory for six.

A careful restoration has preserved the chalet's original stone façade with wooden accents, blending seamlessly into the Alpine landscape. The mountain-view roof terrace features a handcrafted wooden hot tub for eight, perfect for relaxing after a day on the slopes, while the garden with an al fresco dining area invites guests to enjoy the fresh mountain air. The chalet offers ski-in access and is just a three-minute walk from the cable car, connecting you to over 400 km of slopes in the La Via Lattea ski area.

Inside, Property 1557152202 is a masterpiece of design. The heart of the chalet is the open-plan living and dining area on the ground floor, where a striking stone ceiling with vaulted arches enhances the atmosphere. The dining room is a true showpiece, featuring an impressive wooden table illuminated by a suspended candle holder and surrounded by fluffy chairs. Plush sofas abound, creating an inviting retreat by the grand stone fireplace, while elegant wooden staircases with transparent railings lead to the upper floors.

The ground-floor kitchen blends traditional Alpine style with modern design, featuring a wood and stone ceiling. The décor reflects the chalet's connection to nature, with touches like a tree stump kitchen table

base and flooring made from thin slices of small logs. Every detail has been thoughtfully considered, from Egyptian cotton linens to underfloor heating in the bathrooms and salon-quality hairdryers. On the ground floor, you will also find the entrance, a ski room, a laundry room, a cellar, and a guest bathroom.

Each bedroom is uniquely designed, with furniture handcrafted by different artisans, giving each space its own character. The highlight is the stunning master suite, featuring a freestanding bathtub placed before the bed, perfect for moments of relaxation. The master suite is located on the first floor, along with two other bedrooms and the media room, which has a fireplace and a double sofa bed for two extra guests. The media room shares the bathroom of one of the other two bedrooms, separated by a small vestibule.

The top floor contains the remaining two bedrooms, separated by a central relaxation area. This refined space offers a haven of tranquillity, furnished with 1920s French leather armchairs on a Mongolian felt rug with leather inlays, adding a touch of elegance. The floor also features a children's dormitory for six, sharing the bathroom of one of the bedrooms. The bathroom is positioned between the children's dormitory and the bedroom. Additionally, this floor includes a terrace with an outdoor hot tub.
